<b>Acknowledgements</b> .....	<b>v</b>
<b>Read This First! Making Effective Use of These Activities</b> .....	<b>vii</b>
<b>How These Activities Support the</b>	
<b>Next Generation Science Standards*</b> .....	<b>xii</b>
<b>Recommended Sequences: POGIL® Life Science Activities</b> .....	<b>xiv</b>
<b>Introductory Activities</b>	
<b>Intro Activity 1</b> —Exploring Roles Used in POGIL® Teams .....	<b>1</b>
<b>Intro Activity 2</b> —Inferring Experimental Design From Data Tables	<b>9</b>
<b>Life Science Activities</b>	
<b>LS Activity 1</b> —How Do Living Things Interact? .....	<b>28</b>
<b>LS Activity 2</b> —Interactions Between Pests and Crops:	
Will There Be Damage? .....	<b>49</b>
<b>LS Activity 3</b> —How Does the Amount of Food	
Affect an Organism’s Growth? .....	<b>68</b>
<b>LS Activity 4</b> —How Body Cells Reproduce (Mitosis) .....	<b>90</b>
<b>LS Activity 5</b> —Why Aren’t We All Clones? (Meiosis) .....	<b>114</b>
<b>LS Activity 6</b> —Cookies and Proteins:	
When Instructions Go Wrong .....	<b>136</b>
<b>LS Activity 7</b> —Looking Closer at Making Proteins .....	<b>154</b>
<b>LS Activity 8</b> —Seeing the Past:	
Imagining How Species Change Over Time ....	<b>176</b>
<b>LS Activity 9</b> —The Fossil Record: How Have Animals	
Changed Over Earth’s Long History? .....	<b>197</b>
<b>LS Activity 10</b> —Factors That Influence the Process of Evolution	<b>222</b>
<b>LS Activity 11</b> —Animal Arms Races .....	<b>252</b>
<b>LS Activity 12</b> —Comparing Early Development of Organisms	<b>272</b>

## Table of Contents Continued

**Evolution-related activities revised to teach concepts without using the term “evolution.”**

<b>LS Activity 8 NoE</b> —Seeing the Past: Imagining How	
Species Change Over Time . . . . .	296
<b>LS Activity 10 NoE</b> —Factors That Influence the	
Process of Change Over Time . . . . .	317
<b>LS Activity 11 NoE</b> —Animal Arms Race . . . . .	347
