

# Compass Measurement Challenge Worksheet

Course	Start	Point A	Point B	Point C	Destination

1. Name two factors that may affect a compass reading.
  
2. In what direction does a compass needle point?
  
3. Would having steel or iron nearby affect a compass reading? Explain.
  
4. What is the scale of the compass?
  
5. Give the value in degrees for each cardinal point of the compass; that is, North, South, East, and West.
